PROFESSIONAL SUMMARY:

To leverage my one-year hands-on experience as a **Django Developer**, specializing in Django CRM, Django Rest Framework, and advanced Django concepts. Seeking opportunities to apply my expertise in crafting e-commerce sites, Billing software using Python, and developing innovative Android applications with Kotlin and Firebase integration, contributing to impactful and forward-thinking projects.

EDUCATION:

Bachelor of Engineering (B.E) in Electronics and Communication Engineering,
Paavai College of Engineering, Anna University,
CGPA: 8.47.

TECHNICAL SKILLS:

- Languages: Python, Kotlin, HTML, CSS, JavaScript
- Frameworks: Django, Django Rest Framework
- Tools: Selenium, Chrome Driver, Firebase, Mysql
- Development: E-commerce site, Django CRM, Billing software, WhatsApp bot automation, Android App development in Kotlin.

PROFESSIONAL EXPERIENCE:

Django Developer | [Thaagam Foundation]

- Implemented and maintained Django CRM solutions, demonstrating in-depth knowledge of Django CRM.
- Utilized Django Rest Framework to create robust APIs, ensuring seamless integration with external systems.
- Designed and implemented billing software in Python, automating billing processes and enhancing accuracy.
- Implemented WhatsApp bot automation using Selenium and ChromeDriver for streamlined communication.
- Worked on Android Kotlin development, integrating Firebase for enhanced mobile app functionality.

PROJECTS:

1.E-commerce Site | [3 Months] :

- Designed and implemented a feature-rich e-commerce site using Django, showcasing expertise in HTML, CSS, and JavaScript to create an engaging user interface.
- Leveraged Django Admin for seamless management of new items, ensuring efficient and user-friendly content updates.
- Implemented secure payment gateways, enhancing the site's reliability and user trust.
- Integrated third-party APIs, including Paytm, to expand functionality and provide users with a seamless and secure payment experience.
- Ensured secure payment gateways and integrated third-party APIs for enhanced functionality.

2.Billing Software | [15 days] :

- Created a billing software solution in Python, automating billing processes and improving accuracy.
- Utilized GUI from Tkinter to enhance the software's capabilities.

3.WhatsApp Bot Automation | [2 Months] :

- Developed an automation solution for WhatsApp bots using Selenium and ChromeDriver, significantly enhancing communication efficiency and automating routine tasks.
- Leveraged MySQL Connector to establish robust server connections, ensuring seamless data flow and enhancing the overall performance of the system.

4.Android Kotlin App with Firebase | [3 Months] :

- Developed a mobile app using Android Kotlin, integrating Firebase for real-time data updates and cloud functionality.

ADDITIONAL INFORMATION:

- Expert in JavaScript integration within Django projects.
- Proven ability to excel independently and collaboratively.
- Strong problem-solving skills and meticulous attention to detail.
- Familiarity with AI tools (ChatGPT) and POWER BI.
- Proficient in Git for version control.
